

One Pager - Lünnewell in English

Lünnewell - know-how and quality

In 35 years, we have gathered a wealth of experience in the processing of corrugated board and acquired a wealth of knowledge. From our own experience, we know the requirements of processing companies for the raw material of corrugated board processing. We will now incorporate our expertise and our quality standards into the production of corrugated board. We supply the processing packaging industry as a competent, reliable partner and produce corrugated board according to your specific requirements!

Modern technology

As a young state-of-the-art company, we are one of the innovative and future-oriented providers in the packaging industry.

The quality of our products and the good cooperation with our customers distinguish Lünnewell.

With the newly installed corrugator from BHS, Lünnewell is ready to take on board the production of corrugated board in order to cover the bandwidth of your requirements with the latest technology and the highest quality standards.

On more than 12,500 square meters, more than 150 million square meters of corrugated board can be produced per year in three-shift operation.

Logistics

Lünnewell can process 250 tons of paper daily.

In the corrugated cardboard factory of Lünnewell, the sheet loading takes place in-house. The loading of the finished goods can be done on pallets as well as on sleeves.

Lünnewell focuses on energy efficiency!

Lünnewell's corporate policy is geared to producing and selling products and services from an ecological, economic and social point of view. A responsible and careful use of available resources and energy is of particular importance.

For this reason, the company has appointed an internal energy team to initiate the continuous increase in energy efficiency. The most important measures include the implementation of an operational energy management system, a systematic recording of consumption, the ongoing development of energy efficiency potential and investments in modern, energy-efficient technology.

This commitment is verified through regular energy audits.

Lünell is FSC® certified

The company Lünell GmbH attaches great importance to transparent and responsible procurement policy. For this reason, the company is committed to the principles of FSC® and is also certified according to this international standard (FSC-C123525).

The Forest Stewardship Council® (FSC) stands for Sustainable Forestry, which seeks to preserve and improve the economic, environmental and social functions of forest operations. Thus, Lünell offers the opportunity to contribute to the preservation of nature and the environment with every purchase of corrugated board.
